

“Anugraha Sandesha”

Dear Sri Mahalingam Balaji,

Date: 24 November 2023

At the outset we pray our upaasyamoorti Sri Vittala to bestow his fullest blessings on you for having taken a bold and most relevant step to re-establish the significance of the Brahmin community through your various selfless deeds. One of such being the most “need of hour” deed like authoring a book titled “Brahmin Genocide - The Precursor to Hindu Extinction”. This book not only informs but alerts the Brahmin community about the real challenges faced by them every now and then in spite of being very soft natured, selfless and far from hatred politics. Instead of applauding the Brahmins for preserving and silently propagating Sanatana Dharma through their daily rites and rituals, they are often criticised and attacked personally, taking advantage of their soft nature.

Your book has brought out the truth behind such atrocities, educating and cautioning the Sanatana Dharmeeyas to rise and cooperate with like-minded people or institutions to preserve and strive for the safety of the present and future generations of the Brahmin community. We have been doing the same not only in our nation but also in various countries for more than three decades. Hence, we very well understand this great work of yours which will undoubtedly energise all Brahmanas living within and outside Bharath. We also appreciate your selfless efforts towards propagating our dream project “Koti Gita Lekhana Yajna” and thereby creating a conducive and blissful environment for the well-being of Sanatana Dharmyees. We wish you great success in all your auspicious deeds and pray to Lord Krishna to grant you with more of Jnana, Bhakti and Arogya.

With Saprema Narayana Smaranamas

H.H. Sri Sri Sugunendra Theertha Swamiji
