Anugraha Sandesha

Srimathe Ramanujaya Namaha.

The book “Brahmin Genocide – The precursor to Hindu Extinction” authored by Sri.Mahalingam Balaji is a bold step taken by the author with details of how sanathana dharma was revered and followed in the past and how an intense campaign is unleashed now to shake this faith and propagated through various means and social media platforms.

Sanathana Dharma holds eternal values and virtues. It is the very foundation for the well-being of the entire humanity irrespective of caste, creed, colour and religion. Any malicious attempt to shake these fundamental values and faith will do no good and ruin the society, besides creating chaos and unrest.

While this book is an eye opener on how false narratives are consistently built and not to fall prey to such propaganda, it also elaborates ways to overcome these challenges and simple steps for each one of us to follow in our day-to-day life.

I urge readers to take the message of this book seriously and resolve to preserve and promote our Sanathana Dharma by following those principles. This is the least we could do to our Acharyas who stood by these values and spelt out for the benefit of all of us.

With blessings,

At the service of
Swami Ramanuja

Yathiraja:
